Dear << Test Title >> << Test First Name >> << Test Last Name >>,

The AHA/ILCOR 2015 Resuscitation Guidelines are currently being finalised. ESICM members, as important users of these guidelines are invited to read and to post their comments on these draft recommendations.

Any suggestions, modifications or additions will be thoroughly reviewed, and may be taken into account in the final version of the 2015 guidelines. Comments should be entered through the following link: www.ilcor.org/seers by the deadline - February 28th, 2015.

This is a unique opportunity for our members, as professionals working in intensive care and emergency medicine to utilise our knowledge at the bedside to help shape influential guidelines which will guide our practice in the coming years.

Thank you in advance for providing your input.

Sincerely,

Daniel De Backer
ESICM President
